

At FMC Ice Sports, we care about the health and wellness of our skaters and customers. To keep our skaters and customers safe and healthy amid growing concerns and the spread of the latest coronavirus (COVID-19), we are taking additional steps throughout our arenas.

In every FMC Arena, we use 3M Quat Disinfectant Cleaner, which is used in hospitals and meets the US EPA's Emerging Pathogen Policy. We are disinfecting the arenas throughout the day and at night to prevent the spread of germs and kill the virus.

We ask that our skaters and customers continue follow best practices in our arenas.

- If you or someone in your household is sick, or has been exposed to COVID-19, please stay home.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing or sneezing.
- Avoid touching your eyes, nose and mouth with unwashed hands.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- If you are unable to wash with soap and water, utilize the antibacterial gel. Remember to use these products as needed, as they have a tendency to dry out your hands and allow you to become more susceptible to viruses.
- Facemasks should only be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others.

We want to take this opportunity to encourage high risk individuals with compromised immune systems or other risk factors to avoid crowded places and use their best judgement when determining whether to attend ice sports events in our arenas. Please consider your own health and the health of others when making the decision to attend games and practices.

As the situation continues to evolve, please refer to the CDC website or the Massachusetts government website for additional information.
