School Skating Details & Tips

Public Skate sessions attended must be during school hours and cannot be on the weekends, school vacation weeks, or days off of school.

·Each group must provide their own chaperones in the ratio of 1 chaperone to each 25 skaters to be responsible for each group on and off the ice. At least half of the chaperones should be willing to go on the ice with the skaters.

·Classes should arrive at least 30 minutes prior to their start time to allow ample time to get skates on. Participants should wear long sleeves and pants, gloves or mittens and thin socks. Helmets are highly recommended. Helmets are not provided by the arena and must be provided by the participants.

·Classes will be on the ice during a regular public skate session. Other skaters may be on the ice with your group.
